

Development Office

An Into the Light Publication, September 2005, Volume 1, Issue 1

G. Yvonne Pérez, President

Why a Development Office?

The purpose of the Development Office is to promote the Mission of the Oratory Schools and to preserve Catholic Education for the 21st century. Development offers a long-range term solution for a school's financial stability in the future. It also serves to "market the schools" and to increase support for the school system within the school and civic population. Efforts will focus on receiving large private and grant donations on a consistent annual basis, with programs and plans outlined for the next 5-10 years. Together with the Governance Board, the administration, parents and members of the development committee, this year's goal is to obtain the necessary monies to build additional classrooms on the school owned property on Moore road. The future of our schools cannot continue without an established development office and program.

Development

- Annual Giving Program & Gala
- Business and Foundation Grants
- Scholarship Endowment Fund
